

My name is Kathryn Bichsel and this is my 6th year teaching at Freedom Academy and I love it! Teaching is something I enjoy very much. I have taught 9th grade, both 3rd and 4th grades, 2nd grade for the past five years and am now ready to soar into 6th grade here at Freedom Academy!

I am married and am the mother of four children, all of which attended or are still attending Freedom Academy. We enjoy spending our time together as a family. One of our favorite vacation spots are the hot pools at Glenwood Hot Springs in Colorado. We also like to go camping, boating and fishing. We have recently become experts on card playing games like SkipBo, Garbage and Blink.

I love to read! I couldn't say that I have a favorite book because I have many books that have become favorites. I don't have one specific genre, I just love learning from books! I also like to work on hand sewing projects. I can't go anywhere without some kind of sewing project or a book to read. My favorite color is red and my favorite food is potato chips. I play the piano but I don't sing, nor do I dance, although I wish I did.

I received my educational training from Brigham Young University, graduating with a BS and my teaching certificate in the social sciences. I have also earned my ARL in Elementary Education and am certified to teach K-12. I have a current Level 2 Utah State Teaching license. I am bi-lingual in Spanish and English.
