

Welcome to Second Grade!

My name is Juanita Beavers. I have been teaching over nineteen years in a variety of capacities. For several of those years I have been at Freedom Academy. I speak some Spanish and have a lifetime credential from California to teach English as a second language, ESL. My great strength is teaching reading. In addition, I co-ordinate the Mentor Program for newer teachers here at Freedom Academy. I earned a BS degree from Southern Oregon University, a university well known for its education program. Currently I hold current teaching credentials in Oregon, California, and Utah. I taught kindergarten, first, second, and third grade for sixteen years at Campus Park School in Livingston, California. I ran after school tutoring programs, taught GATE, was elected President of the teachers union, served on the school leadership team, and taught students transitioning to English from many other languages. Singing, reading, gardening, and sewing are some of the things I love to do. My husband and I have seven children, all grown, and fifteen grandchildren. I look forward to working as a team with my students and their families.

Sincerely,

Mrs. Beavers
